PROFILE

Enthusiastic and adaptable developer with hands-on experience in full-stack development using Angular and Java, with growing expertise in Python and AI-driven automation.

PROFESSIONAL EXPERIENCE

Junior Software Developer Intern

Infomatics Corp - Mangalore | June - Present

- Contributed to full-stack development using Angular for frontend and Java for backend for enterprise-level web applications.
- Collaborated with cross-functional teams to design and deploy RESTful APIs and data-driven modules.
- Currently working on a Saudi client project to develop a WhatsApp AI bot for automating yacht booking services.
- Integrated OpenAI APIs for chat and voice automation to improve customer interaction efficiency.

TECHNICAL SKILLS

Programming: Java, Python, C, C++

Frontend / Web: Angular, HTML, CSS, JavaScript, React, Node.js, PHP

AI / Machine Learning: TensorFlow, OpenCV, Scikit-learn, NumPy, Pandas, NLP, LLMs, Prompt Engineering, AI APIs, Voice/Chat Automation

Backend / Frameworks: FastAPI, Node.js

Databases: MySQL, MongoDB, Firebase

Mobile: Kotlin, Flutter, XML

FEATURED PROJECTS

Agrimate - AI Based Agriculture Mobile App

Kotlin, XML, Firebase

Developed a mobile application for crop yield prediction and farm management. Integrated real-time market price and climate APIs and implemented a crop calendar feature using climate APIs.

Canara Dhvani - College Daily Updates Android App

Java, XML, Firebase

Developed a mobile application providing students with academic updates, campus events and announcements while enabling faculty to manage attendance records.

Ayush - Ayurvedic Healthcare & E-commerce App

React Native, Node.js, MongoDB

Built a mobile application for Ayurvedic product sales and health appointment booking, with an admin panel for managing products, therapies and user bookings.

Question Paper Generation System

React, MongoDB

Developed a dynamic question paper generation system enabling teachers to manage questions, define patterns and generate papers aligned with COs, POs and Bloom's Taxonomy.

Online Cake Ordering Website

HTML, CSS, JavaScript, PHP, MySQL

Developed a mini web project allowing users to select menu options and place orders.

Nest Nurture

Kotlin, XML, Firebase

Developed an Android application allowing users to explore interior designs and place orders.

EDUCATION

Master of Computer Applications

St Joseph Engineering College, Mangalore | 9.42 CGPA | Aug 2025

Bachelor of Computer Applications

Canara College, MG Road, Mangalore | 9.45 CGPA | Aug 2023

PUC

SM Kushe P U College, Attavara, Mangalore | 78.5% | Mar 2020

SSLC

GHSS Mangalpady, Kasaragod, Kerala | 96% | Mar 2018

CERTIFICATIONS

- Foundation of User Experience (UX) Design - Google
- Introduction to Machine Learning - Infosys Springboard
- Fundamentals of Java Programming - Coursera
- Flutter and Backends: Integrating Flutter with Google Firebase - Infosys Springboard
- Flutter Development: Introducing Flutter & the Dart Programming Language - Infosys Springboard

ACHIEVEMENTS & ACTIVITIES

- Infovision 2023
- Terahertz 2022
- Cifra 2022
- One-week placement and training workshop conducted by iSkew
- Organized a Coding event at Canfest 2022
- Organized a Web Development event at Canfest 2023
- Committee Head of Event Management and Drafting, Joshiana 2024, SJEC
